KENDALL'S STORY OF DISASTER DISCOUNTED BY STATEMENTS OF COLLIER'S CAPTAIN AND CREW

Examination of Collier Shows Sharp Point of Anchor Projecting
From Bow—May Have Caused Great Rent in Empress's Side
—Preparations Made for Investigation—Pilot Nault's Statement

Montreal, June 1.—The government investigation of the sinking of the Empress of Ireland and the loss of more than 1000 souls aboard will be held in Quebec and will begin on Tuesday, June 2. This announcement was made today at the offices of the Canadian Pacific railway, officers of the last vessel.

Montreal, June 1.—The sharp point of an anchor projecting from the twisted hull of the Norwegian collier, Empress, may explain why that vessel and much of the passenger when she rammed the Empress of Ireland early last Friday morning in the lower St. Lawrence. An examination today of the collier's shattered plates revealed the anchor, jammed in a position where it would have fouled through the hull of the Empress like a great cannon. The anchor points and portions of the battered steel are surrounded by a mass of blood.

Preparations were begun here today for the inquiry into the disaster which cost 945 lives. The inquiry will be conducted by a joint commission of Canadian and British shipping experts. The arrangements for the inquiry, which will be held either here or in Quebec, are being made by Captain Landis, Canadian wreck commissioner.

Respective Engines Discounted.
Montreal, June 1.—Pending the full investigation into the Empress disaster, which has been promised by the marine department, and which, according to a statement made of weeks' "consequence" by the marine department, will be held in Montreal, little can be learned to throw light on the cause of the tragedy. Captain Kendall's statement has been offset to a little extent by that of Captain Anderson and the members of his crew and until further evidence is given on both sides before competent authority it will be impossible to say which of the two were at fault. This morning preliminary reports were taken.

LAURENCE IRVING'S BODY IS RECOVERED

Quebec, Que., June 1.—The body of Laurence Irving, the English actor, was picked up last night on the wreck, that of the St. Lawrence bound Rimouski. Irving's face was bruised almost beyond recognition. A slight sign of his fingers led to the identification. One hand was clenched in a piece of clothing, probably torn from the night-gown of the actor, when he was making desperate efforts to save when they were taken from him.

ders of the engines until they were blown out.

To Recover More Bodies.
Ottawa, June 1.—Captain Poirot, of the government steamer Lady Evelyn, which has been engaged in the work of recovering survivors from the Empress of Ireland, has been ordered to use his own judgment, and never mind expense or trouble, to recover as many bodies as possible. "Do not wait for instructions," wrote H. P. Poirot, "but use your own judgment, and never mind expense or trouble. Report from time to time by wire. I have reports from Montreal that many dead bodies are on and off the coast. Start at once to pick them up as fast as you can."

300 MOUNTED MEN ARE SEEKING MURDERERS OF AMISK JUSTICE OF PEACE

Ten Men Arrested on Suspicion and Placed in Lockup at Hardisty
—Made Escape From Town by Hand-Car—Left No Trace Except Tracks Around Section House

(By Bulletin Staff Correspondent.)
Amisk, June 1.—Before midnight last night six men were under arrest on suspicion of having murdered Jack Chitine, the Amisk justice of the peace and merchant. By nine o'clock this morning four more were in custody. Over 300 mounted men are scouring the country. In addition those who were arrested and placed in the Hardisty lock-up, scores of Indians and trappers were dragged from their trails all the way from Wetaskiwin to the west as far east as Carleton Place. Two men so far are sufficiently close to the descriptions given by people who saw the men either before or after the crime was committed to inspire in the police confidence that they have secured any of the guilty men.

Description of Men.
The men wanted vary in height from five feet eight inches to five feet ten inches. Two are black complexioned and neatly, but not cleanly built. They are wearing overalls. The third man is tall and slim with a small mustache and wearing a cap. The murder was committed at 5:30 on Saturday evening in the Amisk Hotel. Mr. Cronin saw the men running away from his section house and a few minutes later realized it had been burglarized. He telephoned Constable Jackson, at Hardisty. He telephoned Mr. Chitine, who saw the men entering the hotel, but although completely unarmed, he with two young men, followed them. He told them to throw up their hands. Two did so. The third drew a revolver and shot Mr. Chitine through the abdomen.

RATHER FORCED MOTHER AWAY FROM LIFEBOOT

Montreal, June 1.—Cécile Galland, of whom it is said, who is recovering in a hospital with his mother, a sister forced her away and the two helped him to escape. The mother, who is said to be in a state of mind that she would not let her son go, was forced to leave the hospital.
